RESEARCH METRICS

h-index (Scopus)	3
h-index (GS)	4
Citations (Scopus)	28
Citations (GS)	57
Documents (Scopus)	8
Documents (GS)	15

- Use of Pomegranate peel powder as a low cost Adsorbent for the Decolorization of Azure C dye**
Pure Sciences International Journal of Kerbala 1 (1), 49-54, 2024 | 2024
- Defensive role of olive oil in oxidative stress induced by smoking over load of male in Kerbala city**
AIP Conference Proceedings 2834 (1), 020011, 2023 | 2023 | Cited: 1
- Hypoalbuminemia on Admission in Covid 19 pandemic in Iraq: An Initial Analyst of Mortality and Adverse Events**
Journal for ReAttach Therapy and Developmental Diversities 6 (9s), 58-65, 2023 | 2023
- Defensive role of olive oil in oxidative stress induced by smoking over load of male in Kerbala city**
AIP Conference Proceedings 2834 (1), 2023 | 2023
- Evaluation of haematological; Biochemical parameters and lipid profile in patients with type 2 diabetes mellitus in Kerbala holy city**
AIP Conference Proceedings 2787 (1), 2023 | 2023 | Cited: 2
- Evaluation of haematological; biochemical parameters and lipid profile in patients with type 2 diabetes mellitus in Kerbala holy city**
2ND INTERNATIONAL CONFERENCE ON ENGINEERING AND ADVANCED TECHNOLOGY:(ICEAT, 2023 | 2023 | Cited: 5
- THE IMPACT OF FOLLICLE STIMULATING HORMONE RECEPTOR GENE POLYMORPHISM ON PROGRESSION OF PRIMARY AMENORRHEA IN A GROUP OF IRAQI FEMALES: A CASE CONTROL STUDY.**
Journal of Pharmaceutical Negative Results 13, 2022 | 2022 | Cited: 2
- Serum claudin-5 level as a predictor of changes in the microvascular endothelium in young women with polycystic ovary syndrome**
Journal of Pharmaceutical Negative Results 13 (2), 185-191, 2022 | 2022 | Cited: 1
- Serum Claudin-5 Level As A Predictor Of Changes In The Microvascular Endothelium In Young Women With Polycystic Ovary Syndrome**
Journal of Pharmaceutical Negative Results, 185-191, 2022 | 2022 | Cited: 1
- The impact of follicle stimulating hormone receptor gene polymorphism on progression of primary amenorrhea in a group of iraqi females: a case control study**
Journal of Pharmaceutical Negative Results, 1578-1584, 2022 | 2022 | Cited: 2
- Study the Physiological, Some Biochemical, Lipid Profile Status, and clinical Markers in type 2 Diabetes Mellitus Patients in Al-Najaf Al-Ashraf Governorate.**
HIV Nursing 22 (2), 3036–3040-3036–3040, 2022 | 2022
- ESTIMATION OF ROLE OF HYPERHOMOCYSTEINEMIA, BIOCHEMICAL PARAMETERS, AND CLINICAL MARKERS IN ATHEROSCLEROSIS PATIENTS IN AL-NAJAF AL-ASHRAF GOVERNORATE**
Journal of Pharmaceutical Negative Results, 1585-1591, 2022 | 2022
- Impact of smoking on human lipoprotein**
Ann. For. Res 65 (1), 10562-10567, 2022 | 2022
- ESTIMATION OF ROLE OF HYPERHOMOCYSTEINEMIA, BIOCHEMICAL PARAMETERS, AND CLINICAL MARKERS IN ATHEROSCLEROSIS PATIENTS IN AL-NAJAF AL-ASHRAF GOVERNORATE**
Journal of Pharmaceutical Negative Results 13, 2022 | 2022
- A Review Study Of Research Conducted On Vitamin D**
2022
- Hypoalbuminemia on Admission in Covid 19 pandemic in Iraq: An Initial Analyst of Mortality and Adverse Events**
Methods, 2021 | 2021

17. **Haematological parameters and biochemical indices in patients with chronic kidney disease before haemodialysis Al-Furat Al-Awsat Governorates/Iraq**
AIP Conference Proceedings 2290 (1), 020004, 2020 | 2020 | Cited: 28
18. **Haematological parameters and biochemical indices in patients with chronic kidney disease before haemodialysis Al-Furat Al-Awsat Governorates/Iraq**
AIP Conference Proceedings 2290 (1), 2020 | 2020 | Cited: 10
19. **Hematological characteristics and biochemical status of beta-thalassemia major patients in Kerbala Holy city**
Biochemical and Cellular Archives 19, 2301-2305, 2019 | 2019 | Cited: 11
20. **Study of some biochemical, hematological parameters, insulin resistance, and clinical markers for β -thalassemia patients in Al-Najaf Al-Ashraf Governorate.**
Drug Invention Today 12 (5), 2019 | 2019
21. **Hematological characteristics and biochemical status of beta-thalassemia major patients in Kerbala Holy city**
Biochemical and Cellular Archives 19, 2301-2305, 2019 | 2019 | Cited: 11
22. **Biochemical and Hematological Study with the Appreciation of some Immunological Parameters in Thalassemia Patients at Kerbala Province.**
Journal of Pure & Applied Microbiology 12 (4), 2018 | 2018 | Cited: 8
23. **Supervised**
University of Kerbala, 2017 | 2017 | Cited: 1
