

Mohammed Dheyaa Hamdi Al-Ameedee

محمد ضياء حمدي حكيم العميدي

Lecturer

PROFILE

More than 15 years experience in teaching pharmaceutical Chemistry for undergraduate and postgraduate students

ACADEMIC TITLES

2018-03-01 Lecturer

ADMINISTRATIVE POSITIONS

2019-02-01 - 2020-02-01 Assistant Dean for scientific affairs

PUBLICATIONS (8)

- Molecular Docking, Synthesis, Characterization and biological activity of new Azo-Schiff bases derivative**
Al Mustansiriyah Journal of Pharmaceutical Sciences 25 (4), 581-591, 2025 | 2025
- Synthesis and Enzyme Hydrolysis Study of Acyloxyalkyl Carbamates as New Prodrugs for Amines**
Al Mustansiriyah Journal of Pharmaceutical Sciences 25 (4), 493-500, 2025 | 2025
- Synthesis and Enzymatic Hydrolysis Study of Acyloxyalkyl Carbamate as New Prodrug for Amine**
Palestinian Medical and Pharmaceutical Journal (Pal. Med. Pharm. J.) 11 (1 ...), 2025 | 2025
- An efficient method for synthesis, characterization and molecular docking study of new sulfamethoxazole derivatives as antibacterial agents.**
Pakistan Journal of Pharmaceutical Sciences 34 (3), 2021 | 2021 | Cited: 2
- New Hydrochlorothiazide Derivatives: Synthesis, Characterization and Anti-Microbial Assessments**
Research Journal of Pharmacy and Technology 12 (12), 5848-5854, 2019 | 2019 | Cited: 2
- Self-assembling tyrosine kinase inhibitors for localised targeted delivery**
University of Nottingham, 2017 | 2017
- Linifanib—a multi-targeted receptor tyrosine kinase inhibitor and a low molecular weight gelator**
Chemical Communications 51 (29), 6384-6387, 2015 | 2015 | Cited: 18
- Supporting information Linifanib—A Multi-Targeted Receptor Tyrosine Kinase Inhibitor and a Low Molecular Weight Gelator**
